Introduction

European colonists arriving in Virginia may have been greeted with, "Wingapo." Indians have lived in what is now called Virginia for thousands of years. While we are still learning about the people who inhabited this land, it is clear that Virginia history did not begin in 1607. If you ask any Virginia Indian, "When did you come to this land?" he or she will tell you, "We have always been here."

Virginia's First People

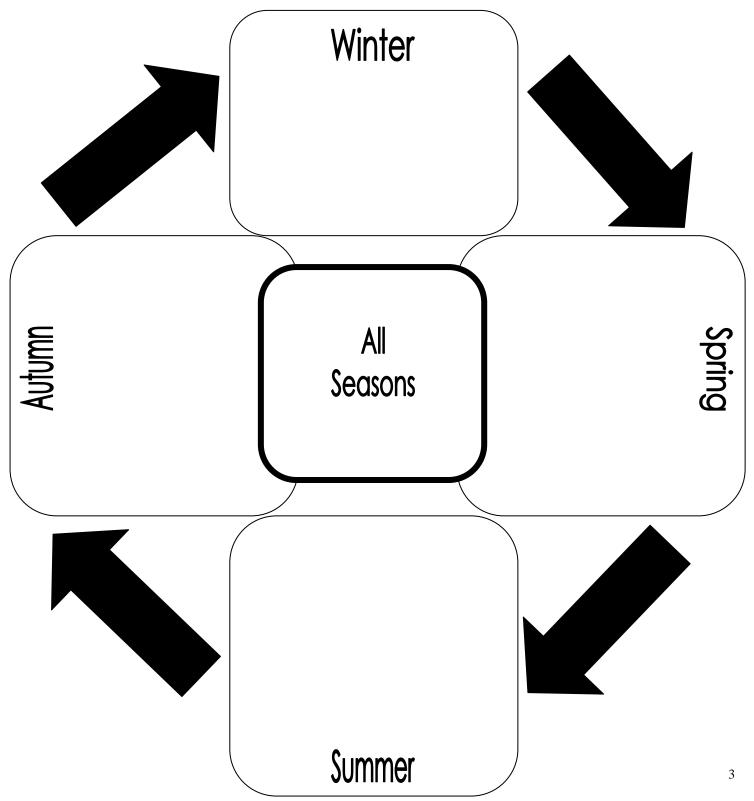

http://www.dhr.virginia.gov/arch_NET/timeline/late_wood_map.htm

There were three major language families at the time of European contact in 1607: the Siouan, the Algonquian, and the Iroquoian. In the video, Keenan taught us that today, there are eleven different Virginia Indian tribes recognized by the Commonwealth of Virginia. This activity book will give you the opportunity to compare Virginia's first people from 1607 to Virginia's first people today. You will also be able to compare your own life and traditions to those of a Virginia Indian child today.

Adaptations & Occupations: 1607

Directions: Draw and label pictures that show how Virginia's first people adapted to their environment and what kinds of occupations they had in 1607.

Adaptations & Occupations: Today

Directions: Take notes or draw pictures about what you learn about each tribe while watching the video.
